Our Soaps are produced using modern formula and traditional methods and are based solely on sunflower and olive oil and are all free of palm oil. Their characteristic composition gives unrivalled cleansing properties, 100% Made in Italy.

FACE with plant and rose oil extracts

Soap for the face is based on olive and sunflower oils, enriched with extract of rose oil, it gently cleanses the skin leaving it hydrated and soft.

HOT TO USE: rehydrate the soap with water until you have a soft foam. Cleanse the face, then rinse.

HAIR with extract of ginger and vine leaves

The hair soap, made with our Komby formula, combines a modern soap with classic surface agents that meet the particular needs of the hair. Enriched with conditioners and extracts that leave the hair soft and natural.

HOT TO USE: rehydrate the soap with warm water until you have a soft foam. Apply the soap directly onto the hair, massage and distribute the product across the whole surface of the hair. Then rinse.

BODY with grape seed oil and Shea butter

The body soap is based on olive and sunflower oils enriched with additives that will delicately cleanse, leaving the skin soft and supple.

HOT TO USE: rehydrate the soap with warm water until you have a soft foam. Clean the body, then rinse.

HAND with essential tangerine and orange oils

The hand soap is made from olive and sunflower oil and is ideal for daily cleaning thanks to the addition of essential citrus oils with cleansing properties.

HOW TO USE: rehydrate the soap with warm water until you have a soft foam, then proceed to clean your hands and then rinse.
